A correspondent, speaking of crops, says that farmers should have a diversity of crops, so that if there is a fail-ure in one there may be a hit in another. The intelligent farmer lays his plans as much as the leader of military. He looks ahead to see what will make him money, and he don't put all his eggs under one hen, for she might leave the nest and all would be addled. Farmers should plan wisely and carry out the plans to the best of their abil-

A French veterinary surgeon says that a simple method of preventing flies from annoying horses consists in painting the inside of the ears or any other part especially troubled with a few drops of empreumatic oil of juniper. It is said that the odor of this substance is unendurable to flies, and that they will keep at a distance from
